NEW LITE Version- Available at AMAZON & Apple e-Books

“Wildly authentic, incredibly intriguing! *20 Ways To Track A Tiger* draws you into the tiger's world to experience all its senses as the prime predator in the Indian jungle. It's non-stop fascination and fun exploring this e-book. Tigers are extremely endangered and we would be tragically diminished should they disappear. Their legend lives on through this landmark interactive innovation.”

Glenn Close, Noted Actress and Producer

20 Ways To Track A Tiger is a new multi-sensory e-book experience immersed in a story about the survival of a wild Bengal tigress and her two cubs in the Indian jungle documented from a real wild tiger film expedition led by a woman explorer, filmmaker and author, Carol Amore. **It's high tech and high touch. Tiger videos, photo galleries, filmmaker notes, original music, tiger and jungle sound effects** are all part of this discovery journey as one travels through each of these unique e-book's interactive chapters.

While in the tiger's territory, identifying the tracks of the tiger, listening to wildlife alarm calls, predicting the travels of the tigress and anticipating its hunting techniques are some of the tiger tracker skills learned through exciting photographs, meaningful captions and story-driven writing. These authentic photographs pull the reader deeper into the world of the tigress and cubs life together. The Filmmaker's Notes takes the adventure to a new level of discovery about filming tigers by learning their special sight, hearing, hunting and physical characteristics as part of keeping alert to capture the best behaviors to show the tiger's daily life. The award-winning **TIGERS-Tracking a Legend** film footage from the Bandhavgarh Tiger Reserve in Madhya Pradesh is also woven within this e-book.

The 20 Ways to SAVE Wild Tigers chapter features the Wildlife Conservation Society's wild tiger field work and proactively addresses how to protect the 3900 tigers remaining in the wild, especially in India. Dr. Ullas Karanth, WCS Science Asia, has an incredible lifetime commitment to saving wild tigers and continues to work towards increasing the wild tiger population through his team's dedication. “Tigers are not a lost cause. Strict protection of key source population, reductions in human demands and conflicts through fair and generous village resettlement projects and application of best science for monitoring and managing tiger populations can bring tigers back. WCS' tiger conservation model shows it can be done with field work in India.” One becomes a true explorer, photographer and filmmaker when navigating this 20 Ways to Track A Tiger experience. Schools, scouts and families will feel their senses awakened through exploring this e-book together as if they were traveling on top the elephant during their own wild tiger expedition.

Gilbert M. Grosvenor, Chairman Emeritus, Board of Trustees, National Geographic Society “*20 Ways To Track A Tiger* is a ten-strike. **A photographic treat.** Carol Amore, explorer extraordinaire, pays homage to the majestic tiger with compelling images and fascinating stories. With the passion of an explorer she stalks, captivates, and uncovers the spirit of the tiger in the Indian wilderness.”

MISSION:WCS saves wildlife and wild places worldwide through science, conservation action, education, and inspiring people to value nature. **VISION:** WCS envisions a world where wildlife thrives in healthy lands and seas, valued by societies that embrace and benefit from the diversity and integrity of life on earth. **To achieve our mission,** WCS, based at the Bronx Zoo, harnesses the power of its Global Conservation Program in more than 60 nations and in all the world's oceans and its five wildlife parks in New York City, **visited by 4 million people annually.** WCS combines its expertise in the field, zoos, and aquarium to achieve its conservation mission.

17. Follow Scavengers
18. Watch the Waterholes
19. Follow Wild Deer Herds
20. Anticipate Different Hunting Techniques

Jane Goodall, Founder Jane Goodall Institute, Primatologist, Ethnologist, Anthropologist And United Nations Messenger of Peace "This beautiful book was born through immersion in the Indian jungle. While illustrating the magnificence of the severely endangered wild tiger through its many breathtaking photographs, it also artfully tells the tale of unique interspecies dependence, focusing on the age-old relationship between tigers, elephants, and humans."

George B. Schaller, VP Panthera & Retired Vice President of Science and Explorations, Wildlife Conservation Society (Bronx Zoo) & Senior Conservationist "Even just a glimpse of a tiger, of the fire in its eyes, its massive power, its dignity and beauty – its sheer magnificence-inspires respect, awe, and admiration. *20 Ways To Track A Tiger* vividly captures the tiger's allure with extraordinary film, photographs and engaging information. It renews the desire to protect one of earth's most precious living treasures."

Ross MacPhee, Curator of Mammals, American Museum of Natural History "Carol Amore's tigers burn exceedingly bright in the pictures that illustrate this magnificent book, a tour de force of conservation awareness."

Art Wolfe, Internationally Renowned Wildlife Photographer "Carol Amore's *20 Ways To Track A Tiger* is a fascinating glimpse into the secret world of a prime predator living in the subcontinent of India. The variety of photos and videos are as spirited as the animals they record."

Milbry Polk, Board Member, The Explorers Club & Author of Award-Winning Women of Discovery, "Carol Amore is a modern explorer. Armed with nerve, insight and technology she has gone into the field and patiently tracked wild tigers to their lairs to capture their lives on film. She herself is an inspiration and her work a gift."

Dr. Wade Davis, National Geographic Society's Explorer-in-Residence- Anthropologist, Author, Ethnobotanist, Photographer "*20 Ways To Track A Tiger* is a wonderful book that celebrates as no other the spirit of the tiger, the most magnificent animal of India, but it also evokes the power of the landscape through which both tigers and humans move in an elegant dance of respect and awe than has spanned the centuries. **Read it with care**, and as you study the extraordinary photographs, imagine how you feel to wake one day to learn that the last wild tiger had been killed. Through the work of people like Carol Amore, we can hopefully be assured that this day will never come."
